

LAST CALL FOR CT'S 2024 EV CHARGING PROGRAM!

Overview:

On April 18th, Eversource and Energize CT announced they would stop accepting EV charger rebate applications effective May 22, **shutting down the program until 2025**. This is your **LAST CHANCE** to get a high quality, commercial grade level 2 charger for your customers / residents at little to no cost (out of pocket).

Applied Energy Solutions Group and Chargers Inc will be accepting 15-20 last applications to submit for the incredible opportunity of the remaining incentives. Don't miss this chance to increase customers, lengthen customers stay, snatch up new tenants or increase tenant retention and satisfaction.

How it works:

We offer our customers two choices. **Turnkey installation and transfer of ownership** or **100% free site hosting**. Every property's situation is unique, costs / revenues vary greatly. Our team can explain the pros and cons of each to help you make an informed decision.

Option 1: Turnkey Installation - We will design, engineer and install a 2-4 port station for your property. We handle all paperwork, permits, applications for rebates and tax credits for your site. Quality L2 installations range in price from \$16,000 to \$40,000 depending on site situation, number of ports (plugs) and the power of the unit. You will be responsible for this total cost, but rebates will cover 100% of the sitework and 50% of the actual charger. A one-time federal tax credit of 30% of the total installation in most cases covers the remaining balance. You will own the unit and be responsible for all maintenance, upgrades and repairs to hardware and software. You will however keep any profits generated by usage.

Option 2: Site Hosting - You give us written authorization to install our charger on your property, at a location of your choice. We install and maintain the unit(s) with no cost or additional requirements from you. ALL responsibilities including user questions, updates, maintenance or unintentional damages are handed by our team.

Next Steps: Time and space are limited! Please call 860-919-7310 right away to get started with your NO OBLIGATION quote. Or visit www.chargersinc.com for more info and to sign up online!
